

COVID-19

4/13/2020

COVID-19 is driving me nuts! I can't see any of my friends, (I can't believe I'm saying this) I can't go to school and I really want to. There are a lot of people are dying every day everyone is wearing masks and gloves and it seems like we're all in a hospital, I can't be with my grandma and my grandma is one of the best grandmas in the world. And to me that's a big deal. I don't get to have a continuation for fifth grade to move onto sixth grade. And I don't get to see the best teacher in the world my teacher Miss. Karford. The only good part about us staying home is there is a less chance of people getting sick if we're not safe and stay clean and healthy then will get the corona. The other good things for me is I get to eat when I want, I get to wear my PJs all day, and I can do my work with my animals to help me and call me down. I get done with my work before lunch or something like that and I get the rest of the day off. So if you think about it COVID-19 isn't the worst but it's impact our lives so much.
